Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 15 December 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 5 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Morgan et al (U. S. Patent no 6,802,519).

See figures housing 19, wiper 21, channel 39, first clamp left side of 17, second clamp right side of 17, triple clamp 13. Note: the double clamp 17 is mounted on both sides of the housing and can be interpreted as reading upon the claim language.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 7 and 8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Morgan in view of Hopey (U. S. Patent no. 6,145,637).

Morgan is relied upon as above. Morgan does not disclose the use of a clamp with a rotatably connection at one end. Hopey shows such a clamp (see figure 4). Such clamps are well known as an alternative designs. It would have been obvious to one of ordinary skill in the art at the time the invention was made to use clamps as shown by

Art Unit: 3683

Hopey in the device of Morgan as such is merely a design choice. It also reduces the number of parts by eliminating one fastener.

5. Claims 5-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Gustafsson in view of Morgan et al.

Gustafsson discloses:

See figures housing 6, wiper 23, channel 24, first clamp 2a, second clamp 2b, triple clamp 3.

Gustafsson does not disclose mounting the clamps on top of the housing. Morgan teaches mounting the clamps on top of the housing. It would have been obvious to one of ordinary skill in the art at the time the invention was made to mount the clamps on top of the housing as taught by Morgan et al in the device of Gustafsson as such is merely a design choice. This arrangement allows for a horizontally short (and vertically longer) assembly which may be useful depending on the designed space in which the device is suppose to fit.

6. Applicant's arguments with respect to claims 5-8 have been considered but are moot in view of the new ground(s) of rejection.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
